for Circular Economy

Policy-making

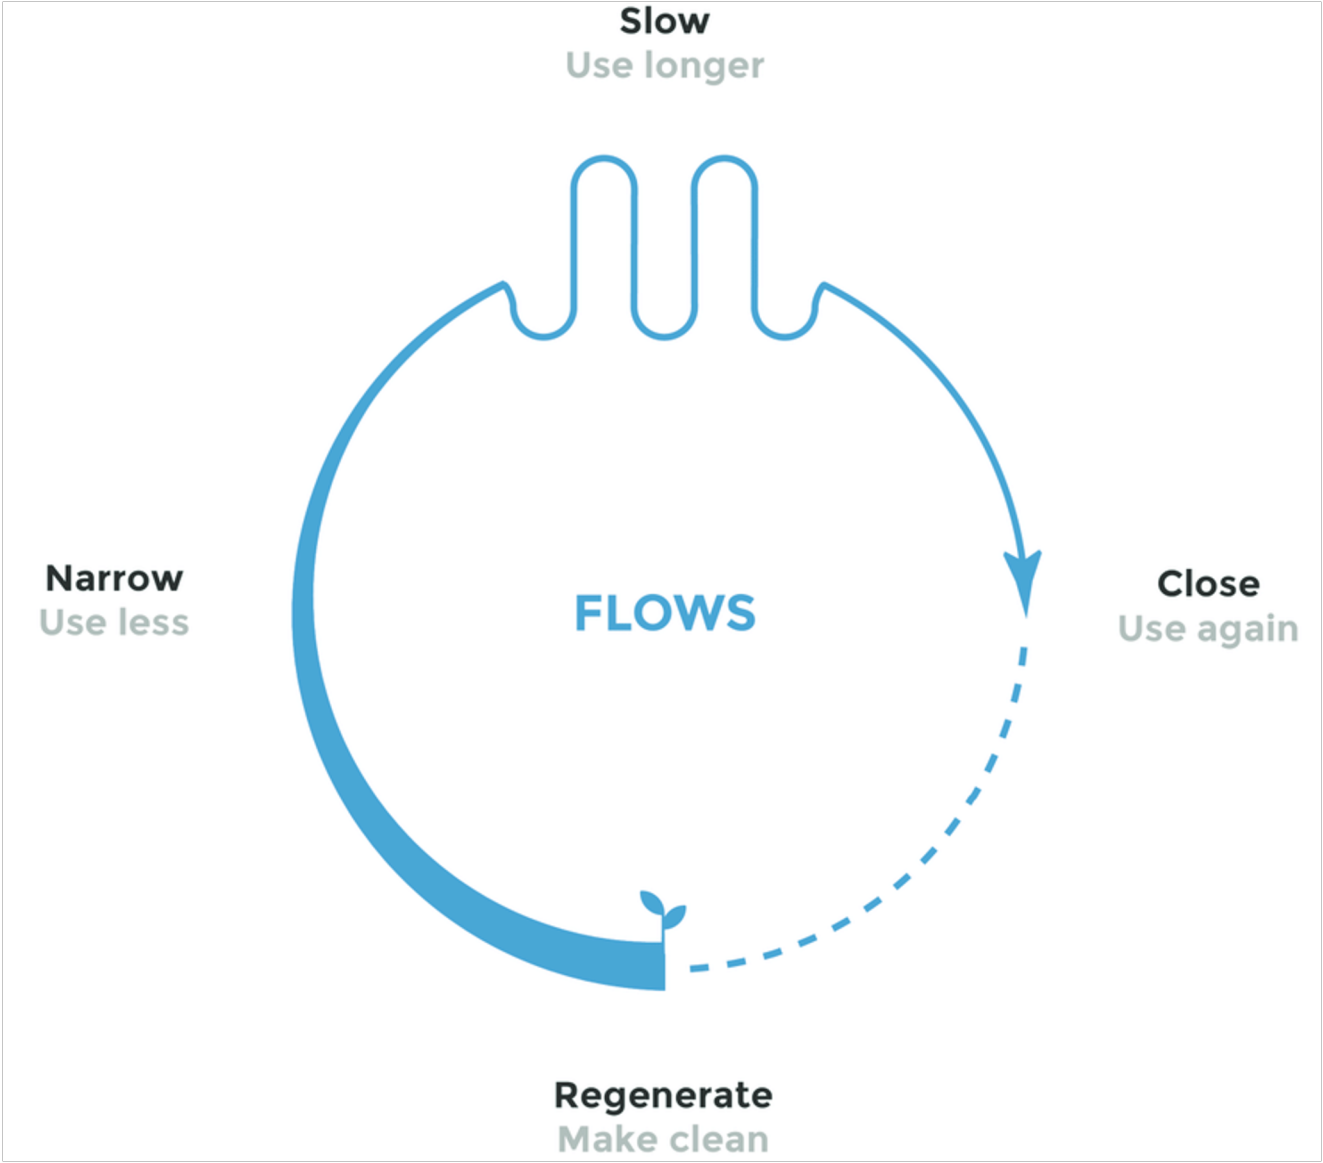

Replacing fossile
fuel with renewable

...without loosing an
inch of nature

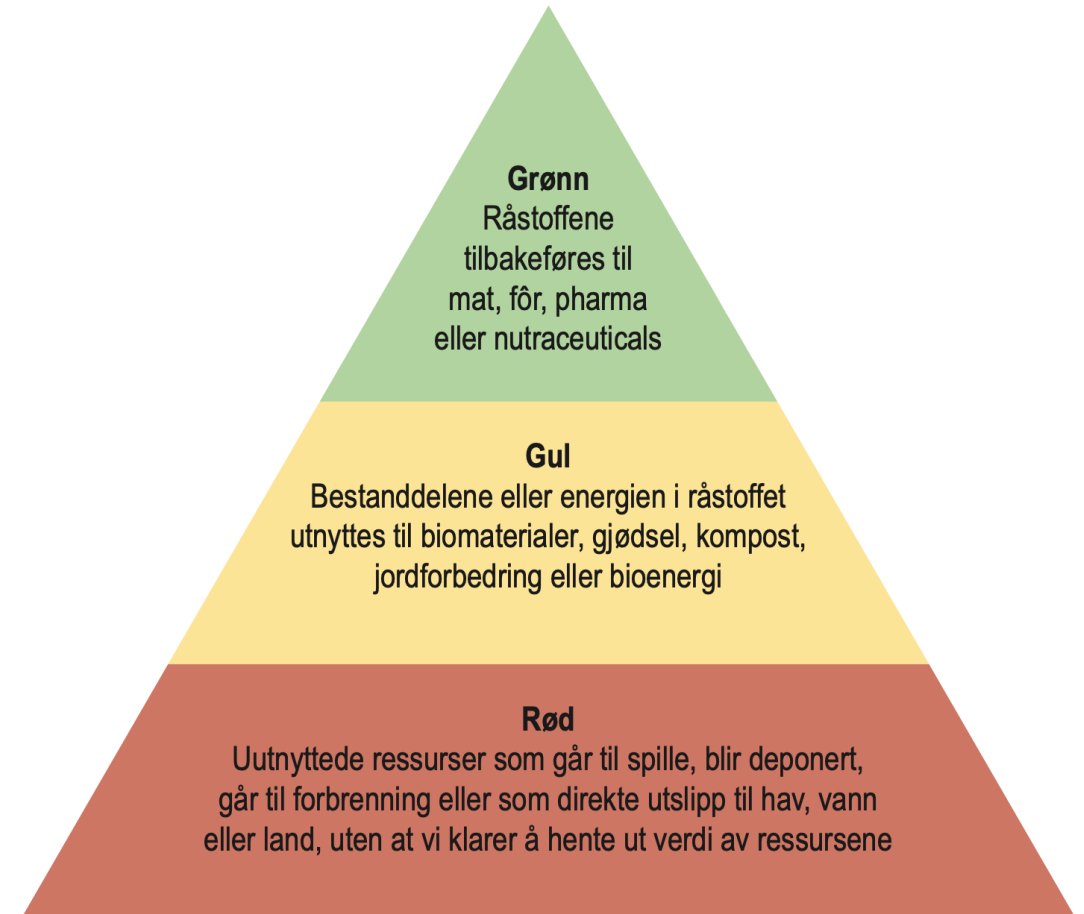

A low-angle, close-up shot of a person's legs and feet walking on a forest path. The person is wearing light blue denim jeans with the cuffs rolled up and dark-colored sneakers with white soles. The path is covered in a thick layer of vibrant green moss and some dry, brown twigs. The background is a soft-focus forest with sunlight filtering through the trees, creating a warm, dappled light effect.

... We all have to be
trailblazers

Economy of Scale

Economy of Scope

A vibrant, fantastical scene from the movie 'The Sandlot' featuring a large, colorful, and surreal landscape. The scene is set in a dark, cavernous environment with stone walls and a central waterfall. In the foreground, there is a large, colorful, and surreal landscape with a prominent, twisted, red and white structure on the left. The ground is covered in lush green grass and various fantastical plants, including a large, pink, trumpet-shaped flower. In the background, there are several small, red, humanoid figures running across the grass. A tall, white, futuristic-looking structure with a circular top and hanging lights stands in the center-right. The overall atmosphere is whimsical and imaginative. A large teal circle is overlaid on the center of the image, containing the text 'Do we need magic?' in white.

Do we
need magic?

The circular economy now,
is similar to the internet in 1994
