

Land-Based Aquaculture: Innovation Ecosystem

Challenges for new RAS projects

THEME:

Production of trout and supply of RAS systems

- Thorsten Vammen, General Manager FREA Solutions
- Producing 2200 MT rainbow trout annually on RAS
- Supplier of RAS systems for rainbow trout globally
- Focusing on low CAPEX/OPEX
- Important with R&D to drive innovation in RAS
- Important to identify risks and challenges early on
- Look at waste products as additional revenue streams
