# SORTED MATERIALS

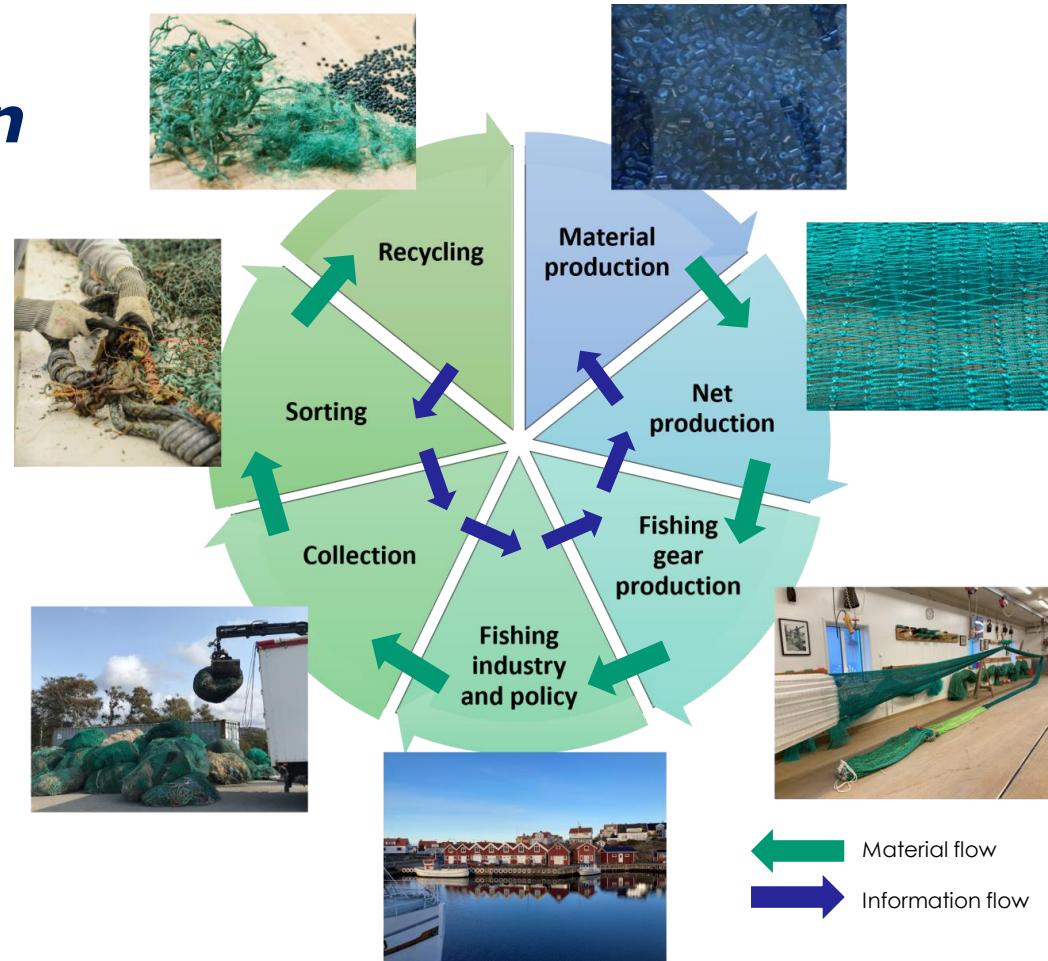

# Join effort towards ghost fishing free oceans – a coordination action

- Incentives for circularity is new - collection of fishing gear has just started with the new EPR directive.
- Collaboration between businesses and industries, the public sector, academia, and civil society will be essential to create a sustainable way forward.

Co-financed by:

Partners:

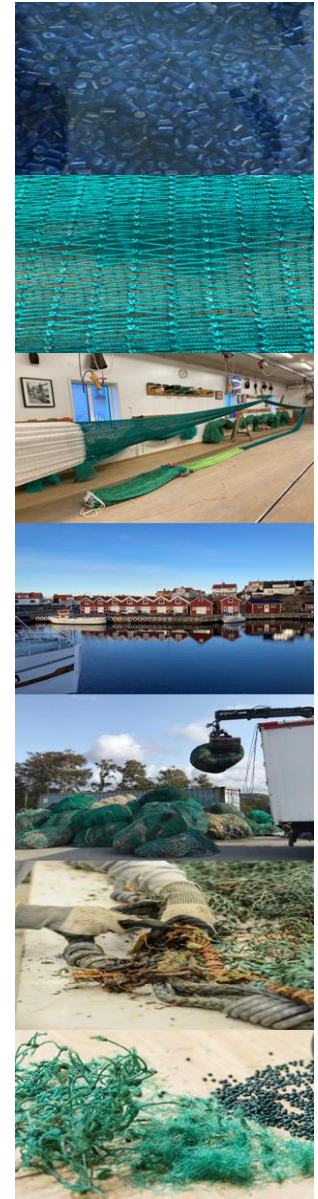

← Material flow  
→ Information flow

# Aim with the initiative

- Gather actors along the value chain and disciplines for future project partnership
- Create a common goal and work plan to achieve cleaner oceans
- Sustainable value chain and business models
- Circular material flows
- Common understanding and movement across the value chain
- Create economies of scale
- Culture and economic incentives
- No abandoned or lost fishing gear
