Turning blue mussels into chicken meat

FiskåMølle

Project activities

Market potential for blue mussels as feed ingredients

Inclusion of 21% dry blue mussel protein meal, accounts for 50% of total protein in diet

...a successful result, will show the great potential for blue mussel protein in chicken feed

BlueMusselFeed

A promising feed ingredient

21%

inclusion level of
blue mussel
protein meal

50%

of total protein in
the diet

1 mill

tonnes raw mussels

**Potential market in Norwegian
poultry and pig production**
