

The hidden treasure of the Baltic sea
for sustainable agroindustry

Tanel Ilmjärvi
Co-founder and CEO

red algae
vetik.eu

Reduction of lands fertility is a global problem!

Solution: Local seaweed based **BIOSTIMULANTS**

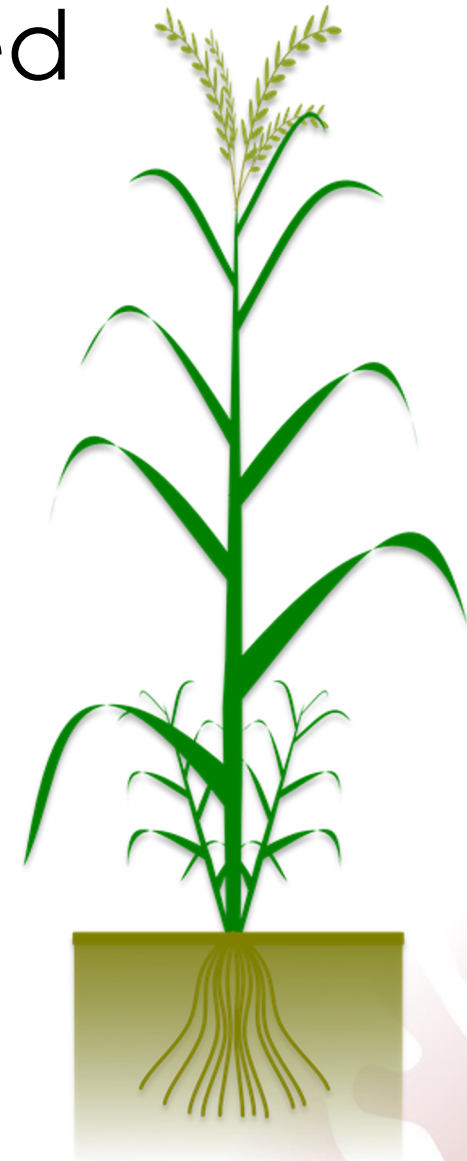

Application ways:

- Seed treatment
- Foliar application

Our prototype:

Increase in crop yield: **>10 %**
ROI: **> 70x**

Sources of seaweed biomass

Wild harvest

>1000t(ww)
First priority

Beach cast

>5000t(ww)

Cultivation

(work in progress)
