

MULTI-USE TECHNOLOGY ROADSHOW

15 - 15 Nov 2023

Poll results

Table of contents

- Which sector are you representing?
- Which technological aspect of multi-use has interested you the most?

Which sector are you representing? (1/2)

0 2 3

Government

Research/education

Industry

Engineering

NGO

Small/medium enterprise

Which sector are you representing?
(2/2)

0 2 3

Other

Which technological aspect of multi-use has interested you the most?

0 2 2

(1/2)

- Monitoring
- Modelling
- Joint electrical infrastructure
- Compatibility with OWE
- Integration of installations and nature inclusive design
- Lessons learnt from practical applications
- Data sharing
- How to integrate other solutions (sensors, ..)
- Carbon sequestration
- Mooring lines
- Power supply for offshore aquaculture with windmills?
- Anchoring
- Blockchain traceability of data
- Anchoring & buoys
- Modelling
- Carbon sequestration
- Use of existing assets
- Synergy
- Infrastructure
- Grid intergration
- Planning procedures on how to implement ocean multi use
- Mooring
- Forces on the structures
- Practical application

Which technological aspect of multi-use has interested you the most?

(2/2)

0 2 2

- Energy systems
- Monitoring
- Synergy
- Ecological monitoring
- Planning and siting
